

# Temporary Traffic Management (LANTRA Awards - NHSS 12DM7)

## Course Overview

A two-day course intended for all levels of management, client officers, technicians and anyone not actually involved in installing Temporary Traffic Management (TTM) who requires a knowledge of basic TTM practice on urban and rural roads.

The course is based on the Safety at Street Works and Road Works - A Code of Practice (The Red Book).

## Aims and Objectives

The aim of the course is to provide delegates with the necessary underpinning knowledge of temporary traffic management and the design procedures. It is relevant to highway authorities, contractors, and for other organisations who require a knowledge of current basic practice and minimum legal requirements.

## Topics Covered

On completion of the course delegates will:

- Have a working knowledge of National Highway Sector Schemes
- Understand the requirements of 'The Safety at Street Works and Road Works, A Code of Practice (The Red Book)' and further guidance from 'The Traffic Signs Manual, Chapter 8'
- Be able to consider all options available to determine the level and extent of the Temporary Traffic Management required
- Be able to demonstrate knowledge of the site risk assessment process
- Be able to assess and determine the temporary traffic layout required for a given work location, activity or operation
- Understand the standard of equipment that is acceptable
- Understand the implications of changing conditions on site
- Have the confidence to liaise with site staff regarding appropriate remedial actions
- Have the ability to confirm the suitability of TTM plans prior to work starting on site
