

Road Safety Audit

Keeping up to date

Course Overview

A two-day course designed to provide up to date knowledge on recent research, publications and DfT Standards relevant to road safety audit, and experience of new audit areas covered and more challenging workshops. It consists of informal short lectures, practical workshops, discussion sessions, case studies and examples.

Aims and Objectives

The aim of the course is to give delegates a more comprehensive understanding of recent research and publications.

The course provides delegates from all backgrounds with the knowledge, skills and understanding to carry out their professional roles and the opportunity for delegates to network and discuss recent complex issues relating to new areas of road safety auditing.

As the aim of the course is to be as current and up to date as possible, please note that the content will always be subject to change. The topics below are from the most recently delivered course, to give a general idea of what will be included.

Topics Covered

A recent two-day course focused on the following key areas:

- Policy, design and guidance update
- Road safety problem identification workshop
